WELCOME TO INFAB

Infab Corporation designs and builds the world's lightest weight, most comfortable and technologically advanced radiation attenuation products with the highest protection levels of any manufacturer. We enable health care providers and patients to apply and benefit from the diagnostic capabilities of imaging technology with the peace of mind that comes from knowing they are protected by the best engineered garments, eye gear and protective barriers on the planet.

TRANSPARENCY IN RADIATION PROTECTION

REAL TESTING. REAL RESULTS. REAL WEIGHTS. REAL PROTECTION.

For over 30 years Infab has been a leader in providing our customers with new and innovative products to protect against harmful radiation. In 2018 we embark on our next industry changing path, Transparency in Radiation Protection. We believe our customers have the right to be educated about exactly what is in their radiation protection aprons. We have adopted a simple 3 Core Material line, KIARMOR Lead Free, KIARMOR Low Lead and LEAD. A simple glance through our core material section will allow customers to easily select the core material best for them. Every core material option provides complete attenuation between 50 and 130 kVp and includes an example of the apron weight.

Infab has put countless hours into researching and finding the best materials to keep customers safe, which is why we urge you to always ask for testing results as NO APRON lighter than an Infab KIARMOR apron can pass all international protection standards.

For the whole story, visit: Infabcorp.com/theKIARMORstory

RADIATION PROTECTION CORE MATERIAL

With over 30 years of research and development, Infab's core material is the choice of hospitals and physicians, worldwide.

With over 30 years of research and development, Infab’s core material is the choice of hospitals and physicians, worldwide.		Materials	Lead Equivalency	Attenuation				Core Weight Lb/Sq. Ft. (of core in apron)	Core Weight KG/m² (area density)	Front Protection Male Medium Apron Weight 303M-M
				50 kVp	70 kVp	90 kVp	110 kVp			
	KIARMOR Lead-Free is the lightest weight protection offered. It is the only lead-free material that passes all 3 universally recognized testing procedures: ASTM F3094-14, IEC 61331-1:2014, DIN 6857-1	Antimony, Bismuth One Homogeneous Layer	.25mm Pb	98.7%	96.1%	92.0%	87.8%	0.548	2.55	3.85 Lbs.
			.35mm Pb	99.6%	98.0%	95.3%	92.7%	0.768	3.56	5.0 Lbs.
			.5mm Pb	99.9%	99.4%	97.8%	96.3%	1.09	5.09	6.95 Lbs.
	KIARMOR Low-Lead passes all 3 universally recognized testing procedures: ASTM F3094-14, IEC 61331-1:2014, DIN 6857-1	Antimony, Lead One Homogeneous Layer	.25mm Pb	98.9%	96.5%	92.5%	88.5%	0.563	2.61	4.0 Lbs.
			.35mm Pb	99.6%	98.1%	95.6%	93.1%	0.788	3.66	5.25 Lbs.
			.5mm Pb	99.9%	99.4%	98.0%	96.5%	1.12	5.23	7.25 Lbs.
	Our classic lead core material.	Lead	.25mm Pb	98.8%	95.1%	90.7%	87.5%	0.636	3.04	4.35 Lbs
			.35mm Pb	99.7%	97.6%	94.5%	92.3%	0.96	4.26	6.15 Lbs
			.5mm Pb	99.9%	99.1%	97.4%	96.1%	1.26	6.08	8.0 Lbs

THE KIARMOR DIFFERENCE

BILAYER TECHNOLOGY

KIARMOR Lead-Free is the lightest weight protection offered. It is the only lead-free material that passes all 3 universally recognized testing procedures:
ASTM F3094-14, IEC 61331-1:2014, DIN 6857-1

Sb	Antimony	51 (Low atomic weight element)
Bi	Bismuth	83 (High atomic weight element)

KIARMOR Low-Lead passes all 3 universally recognized testing procedures:
ASTM F3094-14, IEC 61331-1:2014, DIN 6857-1

Sb	Antimony	51 (Low atomic weight element)
Pb	Lead	82 (High atomic weight element)

SCATTER RADIATION

Scatter Radiation is a type of secondary radiation that occurs when the useful beam intercepts any object, causing some x-rays to be scattered. During an x-ray or fluoroscopic exam the patient is the most significant source of scatter radiation. Most of a technologist's occupational exposure comes from scatter radiation; therefore using safety measures against scatter radiation will effectively lower a technologist's occupational exposure.

ABSORBED DOSE

All X-Ray procedures expose people to a quantity of radiation. Absorbed dose describes the measure of ionizing radiation that remains in the body or organs.

A 0.25 mm Pb Apron allows approximately 10% penetration of source radiation (90% attenuation). At 0.5 mm Pb this becomes 3% (97% attenuation). The difference is five times - or 500%.

KIARMOR Lead-Free's ultra-lightweight, Lead-free composition lets medical personnel work longer, with the highest level of protection at a reduced apron weight.

CERTIFICATION

KIARMOR is the only lead-free material that passes all 3 universally recognized testing procedures: ASTM F3094-14, IEC 61331-1:2014, DIN 6857-1

DIN 6857-1

IEC 61331-1:2014

ASTM F3094-14

REVOLUTION

APRONS

Revolution aprons use the highest quality materials, combined with industry-leading protection to create an industry-changing design.

COMFORT

Designed for the best weight distribution and to fit a wide variety of body styles. Ergonomically correct fit designed by experts so it fits as well as it protects.

PROTECTION

Partial overlap design of Revolution 103 Vest & Skirt offers full protection in each panel, making it the most protective apron available.

STYLE

Featuring Revolution colors and color-blocking design.

COOL WEAR

Moisture-wicking material for inside of apron included on all Revolution aprons.

PERSONALIZATION

- Monograms
- Logo

REVOLUTION PARTIAL OVERLAP PROTECTION

Revolution 103 vests do not require a full overlap to achieve the stated protection level.

All panels provide full stated protection.

CORE MATERIAL CONFIGURATION

Infab offers three configurations of protection options.

All back panels are .25mm Pb

.25 mm Pb

overlap for .5 mm Pb coverage on vest

.35 mm Pb

overlap for .7 mm Pb coverage

.5 mm Pb

overlap for 1.0 mm Pb coverage

All skirts are .5mm Pb at overlap unless specified

703 FULL OVERLAP PROTECTION .5 mm Pb

overlap for .50 mm Pb coverage

103 REVOLUTION VEST & SKIRT

COLORS: 500 Series, 600 Series, 700 Series, 800 Series, 900 Series, Remix
CORE: Lead, KIARMOR Bi-Layer Low-Lead, KIARMOR Bi-Layer Lead-Free
PROTECTION: .25mm LE, .35mm LE, .50mm LE
SIZES: Female XS-5XL, Male S-5XL (**Length alteration $\pm 2''$ or $\pm 4''$**)
FABRIC: Revolution Fabric
OPTIONAL BASE: B103 Classic Nylon Colors without Cool Wear (Custom alterations)
MONOGRAM: **Block** or *Script*

- "Back Flap" for better weight balance
- Removable "Black Belt" in skirt for better lumbar support
- Partial overlap to increase protection
- Every Revolution Apron comes with Cool Wear Moisture-Wicking fabric
- Professionally designed for an exceptional fit and comfort
- SmartTrack enabled

RADIATION PROTECTION OPTIONS

WEB-BASED APRON TRACKING

smartrack.infabcorp.com

Manage, track, and document the inspection of radiation protection garments quickly, easily and completely FREE.

SMART TRACK provides facilities with a simplified and user friendly process to document inspections and print detailed reports for audits from authoritative governing bodies. SMART TRACK does not change your current inspection process it will simply assist in expediting the process.

FEATURES

- Add various users (administrators/inspectors/view only) to your account to assist in the inspection process
- Able to be provided access to multiple accounts for health systems with multiple facilities
- Generate full inventory detailed reports making annual audits seamless
- Dispose of failed garments directly from your account (free service offered by Infab)
- Scan and document apron inspections directly from your mobile phone utilizing the free mobile Smart Track application

BENEFITS

- NO Software, NO Registration/Annual Fees
- Expedite and Streamline the inspection process
- Assistance provided with Smart Track implementation, including inventory upload
- User-friendly design allows for simple integration

TAGS

Included on all new Infab aprons.
Retrofit options available.

Smart Track Scanner and Smart Track Tags with Backing

200 Annual Inspection
Stickers

200 SMART TRACK 2D bar code tags with
permanent security-style backing

SMART TRACK Scanner

MOBILE APP

The SMART TRACK mobile app makes it easy to scan and track all of the aprons in a department or facility. The SMART TRACK app has all the features of the web-based version of SMART TRACK but also includes a built in scanner. The SMART TRACK app requires no sign up fee and no annual fee making it the easiest and best way to track radiation protection garments.

Simply download the app for free, login to your SMART TRACK account and scan and track all of your aprons quickly, easily and completely free.

TESTIMONIALS

"Smart Track makes it simple to manage my suite of lead aprons.

We track over 100 aprons - it saves time and headaches."

Rich Norman

Lead Tech, Los Robles Hospital
Thousand Oaks, CA

"Tracking lead aprons and making sure that they have been inspected is a challenge for any large radiology facility. Of the many apron-tracking systems I reviewed, I knew that the "SMART TRACK" Apron inventory system would work for our facility and meet new regulatory standards set by "The Joint Commission"...The system is user friendly. All I know is that anyone who has the burden of tracking aprons needs to get "Smart" about tracking their apron inventory".

Roseann Zeldin, RT, (R) (M), CNMT

Assistant Radiation Safety Officer, Department of
Radiology & Imaging, Hospital for Special Surgery--
New York City, New York

"The SMART TRACK Apron Inventory system has revolutionized the way lead apron quality control testing and inventory management is performed at our facility. It is a superior, comprehensive, and user-friendly product. Individual bar codes make tracking aprons quick and easy. It is the best system I have had the opportunity to work with."

Doug Beardsall MRT (R) CTIC

Senior Technologist QC, Safety, and Education, Royal
Victoria Regional Health Center-- Barrie, Ontario

INFAB

&

PARTNERING TO KEEP YOUR APRONS CLEAN & SAFE

Infab is proud to be a global cleaning solutions partner with Clorox.

Excellent product aesthetics

- No harsh chemical odor or fumes
- No fragrance added
- Nonflammable, unlike quaternary ammonium-alcohol-based wipes
- No volatile organic compounds (VOCs)

Broad healthcare surface compatibility

- Recommended for plastics and laminated surfaces, whereas isopropyl alcohol will attack some forms of plastic, rubber and coatings*
- Surface materials: All Infab aprons, stainless steel, vinyl, glass, baked enamel, chrome, glazed tile, glazed ceramic, glazed porcelain, porcelain enamel, laminated surfaces, plastic
- If light residue appears, it can easily be removed with a clean, damp cloth

Pictures of 1 ft² Infab apron surfaces after treated with 120 product applications over a 10-week period.

Clorox Healthcare® Hydrogen Peroxide Cleaner Disinfectant Wipes

				
Revolution Fabric	Cool Wear	Standard Nylon	Waterproof	Diamond Ripstop

* Based on 30-second non-TB, non-Staphylococcus epidermidis bacteria and virus contact times for general disinfecting on federal master labels as of 2/14/13.

CASSETTE COVERS

COMPLETE, HIGHLY EFFECTIVE PROTECTION FROM CONTAMINATION

Protect Your Cassettes

Cassettes come in contact with blood and other potentially infectious materials.

- Protect your cassettes from cross-contamination
- Protect your patients from infection
- Specially designed to fit your X-ray cassettes
- For use in any imaging area where a risk of contamination exists.

Help Stop the Spread
of Infection

The Centers for Disease Control and Prevention (CDC) estimates that roughly 1.7 million hospital-associated infections, from all types of bacteria combined, cause or contribute to 99,000 deaths each year.¹

SIZES

Infab offers our Cassette Covers in a variety of standard sizes to perfectly fit your needs. Protect your cassettes in our simple and convenient Infab Cassette Covers. Available in Boxes of 100 or Cases of 500 in an easy-to-use dispenser box.

MAXI-FLEX FINGER LEAD GLOVES

Comfortable fit with maximum dexterity. Soft removable, washable and replaceable inner liners reduce odors and permit frequent laundering. Expanded durable vinyl outer covers are removable for inspection of lead core and permit replacement when they become worn. The lead vinyl cores are precision molded for consistent 0.5 mm lead equivalency and long life.

Protective Core
Material Inside:

KI
KIARMOR
BI-LAYER
LEAD-FREE

The only bi-layer lead-free
core material which passes
DIN (6875-1), ASTM (F3094-14)
and IEC (61331-1-2014)
standards from 50 to 150 kVp.

*"The scattered radiation from the
patient comprises the main source
of radiation dose to staff."*

Scatter Protection

Shields provide scatter radiation protection for radial and many other types of procedures. KIARMOR Bi-Layer is the most protective core material against scatter radiation.

How it works

Sterile Scatter Armor Shields are placed on top of the patient drape to block scatter radiation at the source, creating a scatter-free zone, reducing harmful radiation exposure to the doctor or clinician.

One-time use

Scatter Armor Shields are lead-free and disposable.

Sterile

Packaged individually in sterile packets.

Flexible

Scatter Armor Shields easily mold to the patients body for ease of use and maximum protection

Scatter Radiation Testing

According to ASTM Test Method F3094-14.

Sample Information	50 kV	60 kV	70 kV	75 kV	85 kV	90 kV	100 kV	105 kV
Scatter Armor Shield	0.984	0.969	0.943	0.931	0.900	0.883	0.867	0.844

Direct Beam Attenuation

Sample Information	60 kV	80 kV	100 kV	120 kV
Scatter Armor Shield	0.967	0.911	0.846	0.788

Absorbent

Scatter Armor Shields utilize the highest absorbency covering material in the industry, critical in heavy fluid situations.

Absorbent Rate	1.3 sec
Weight	2.36 osy / 80 gsm
Absorbent Capacity	686% 16.2osy / 549 gsm

GSM - Grams per square meter, OSY - Ounce per square yard

Scatter Armor Multipurpose Shield

Transradial Access: Left and Right Radial, Shunt, Biliary Drainage, Spinal, Fibroid Embolization

Scatter Armor Angiography Shield

Transfemoral Access: Angiography, Coronary Catheterization

Scatter Armor Biliary Split Shield

Biopsy Procedures, Transjugular Intrahepatic Portosystemic Shunt (TIPS)

Scatter Armor Multipurpose Shield with Fenestration

Needle Biopsy or Puncture Procedures.

Scatter Armor EP Shield

Subclavian Access: Bi-Ventricular Pacemaker Implants, ICS procedures, and Bi-Ventricular Pacing.

Scatter Armor Dialysis Drape

Dialysis Access and Declothing Procedures.

BARRIERS

A high-quality piece of purpose-built radiation protection equipment designed to handle the daily rigors of hospital use. Smooth-rolling, easy-maneuvering and the highest levels of radiation protection in the industry.

WINDOW

Your choice of 2.0 mm LE lead glass, completely encased with acrylic panels to help prevent damage and breakage, or .50 mm LE acrylic

CASTERS

Hospital-grade swivel locking casters, for easy mobility and positive and secure placement.

FRAME

Powder coated steel frame. Precision TIG welded for years of trouble-free service completely enclosing the leaded glass panel for increased durability and safety

PROTECTION

2.0 mm LE lead glass or .50 mm LE acrylic window.
1.5 mm LE base panel plus our exclusive 1.0 mm LE floor curtain to protect feet and lower legs.

COLORS

Standard white, black or grey. Custom options available. Upcharge applies.

CUSTOMIZATION

- Color: Frames can be custom powder coated in any pantone color (upcharge applies)
- Size: Infab can produce barriers to your specification
- Logo: Add your logo to any barrier
- Stainless Steel: Optional stainless steel frame

Stationary floor and wall-mounted barriers, built to your specifications.

CLASSIC BARRIERS

Available in a variety of heights, widths, and window configurations, Infab Classic barriers are fully customizable, to any specifications. Custom colors, logos and 100% stainless steel options are available. Full head-to-toe protection with our exclusive base curtain included on every barrier. Your choice of 2.0 mm LE lead glass or .50 mm LE acrylic window. All bases are 1.50 mm LE.

Infab radiation protection curtains are available with a heavy-duty track built to your specifications. Our curtain tracks are available either straight or curved to ensure you get the right fit for your room. Infab radiation protection curtains are available in any size, any of our colors and fabrics and .25, .5, .75 and 1.0 Pb lead equivalency.

Custom Sizes

Our radiation protection curtains are custom manufactured to whatever specifications you need. We will work with you to make sure your Infab radiation protection curtains arrive exactly how you want them, and as quickly as possible.

Custom Tracks

Infab knows not every room is built the same. If you need a curved track for your Infab radiation protection curtains we are happy to build it for you, at your exact specifications. Infab will gladly work with you to create the exact curtain and track you need to make your room perfect and functional.

Contact us with your configuration for an instant quote.

LEAD CURTAIN

Lead curtain includes one grommet hole every six inches. "S" Hook for every grommet.

- COLORS:** Classic Nylon Colors
- CORE:** Lead, KIARMOR Bi-Layer Low-Lead, KIARMOR Bi-Layer Lead-Free
- PROTECTION:** .25mm LE, .35mm LE, .50mm LE, 1.0mm LE
- SIZE:** Per square foot
- 683650** .25mm Pb curtain with Grommets (per sq. ft.)
- 683660** .50mm Pb curtain with Grommets (per sq. ft.)
- 683670** .75mm Pb curtain with Grommets (per sq. ft.)
- 683675** 1.0mm Pb curtain with Grommets (per sq. ft.)

683680 STRAIGHT TRACK FOR CURTAIN

Mill finish 6063-T5 extruded aluminum 1-3/4" wide x 2" high, .080 thick. Priced per linear foot

INCLUDES:

- 1 Straight Track
- 2 End Stops
- 1 Single Carrier for each grommet hole of curtain

OPTIONS:

- Clamp Hanger
- Ceiling Splice
- Trim Chain

OPTIONS:

Clamp Hanger

Bolt with horizontal pipe spacer to prevent carriers from traveling beyond desired location. For use with walk-along tracks.

Ceiling Splice

To align and lock track sections together on ceiling mounted tracks.

1 pair pictured.

Note: Cannot be used with No. 132 Overlap Master or No. 10 Pivot Device due to interference with the wheels.

Trim Chain

3 links No.10 single jack chain added to carriers to provide 3" of curtain height adjustment

683690 CURVED TRACK FOR CURTAIN

Mill finish 6063-T5 extruded aluminum 5/8" wide x 1-11/16" high, .0094" thick.
For curved track applications only. **Each piece requires custom quoting.**

- INCLUDES:**
- 1 Curved Track
 - 2 End Stops
 - 1 Single Carrier for each grommet hole of curtain
- OPTIONS:**
- Clamp Hanger
 - Ceiling Splice
 - Ceiling Hanger
 - Trim Chain

Trim Chain

3 links No.10 single jack chain added to carriers to provide 3" of curtain height adjustment

OPTIONS:

Splice

Steel plates align and lock track together. 1 pair pictured.

Clamp Hanger

Formed steel brackets clamp to track. Adjusts to any position. Suspend track with welded chain or wire rope. 1 pair pictured

Ceiling Hanger

Steel plate mounts flush to ceiling. Track clamps to bracket with offset clips.

TABLE MOUNT SCATTER SHIELDS

The below-table protection screens are attached to the table to protect the operator's lower body from radiation. The upper part of the screen (removable) protects against scatter radiation from the patient's body. The lower part protects against radiation from the tube source.

Easy Setup & Installation

Easily slides on to most tables with side rails and quickly locks in to place with adjustable knob.

Swivel Arm for easy movement of screen

Universal Adapter

077035 MULTIPLE PANEL SCATTER SHIELD

Upper Screen

- .5 mm Pb equivalent with stiff support
- 11" H x 26" W
- Hooks into mobile arm that can be easily removed.

Lower Screen

- .5 mm Pb equivalent, made up of 4 strips
- 30" L x 26" W
- Additional Strip (Included)
- Applied with addition of intermediate joint
- 30" L x 10" W

077036 SINGLE PANEL SCATTER SHIELD

Upper Screen

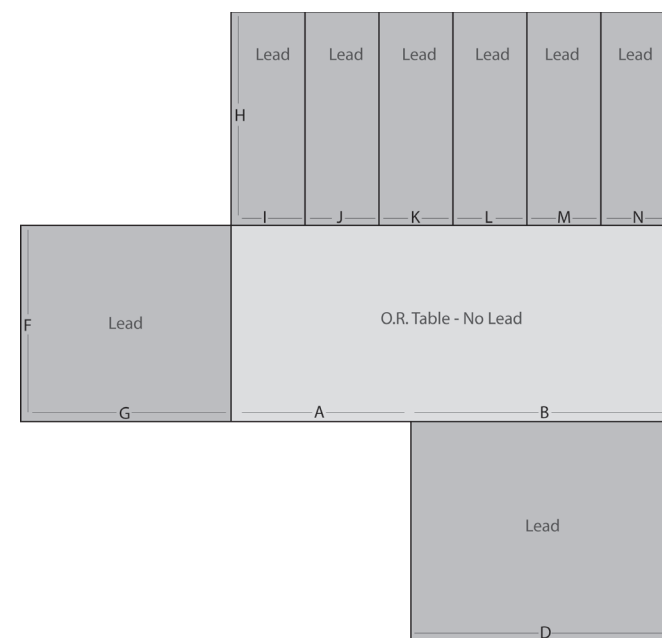

- .5 mm Pb equivalent with stiff support
- 11" H x 26" W
- Covered with washable material
- Hooks into mobile arm that can be easily removed.

Lower Screen

- .5 mm Pb equivalent, made up of 1 strip
- 30" L x 26" W

990007 SADDLE SHIELD RADIATION PROTECTION CURTAINS

- Custom sizing and configuration available
- Easy to install, extremely effective at drastically reducing scatter radiation.
- Available in all of our standard colors, as well as our over 100% in-stock colors.
- Customize to any specification needed.

683400 PATIENT PROTECTION SET

INCLUDES:	Storage rack with 4 aprons (Toddler, Child, Average, Large)
COLORS:	Classic Nylon Colors
CORE:	Lead, KIARMOR Bi-Layer Low-Lead, KIARMOR Bi-Layer Lead-Free
PROTECTION:	.25mm LE, .35mm LE, .50mm LE
SIZES:	Toddler, Child, Average Adult, Large Adult

683401
9" x 11.5"
Toddler Apron

683402
13" x 13"
Child's Apron

683403
14" x 17.5"
Average Adult Apron

683404
17" x 21"
Large Adult Apron

HALF APRON

HSV VELCRO® Closure Half Apron

- HSV-S1** 12" x 24" Half apron with hook and loop closure
- HSV-M1** 18" x 24" Half apron with hook and loop closure
- HSV-L1** 24" x 24" Half apron with hook and loop closure

ASB Buckle Closure Half Apron

- ASB-S1** 12" x 24" Half apron with buckle closure
- ASB-M1** 18" x 24" Half apron with buckle closure
- ASEL1** 24" x 24" Half apron with buckle closure

- Standard hook and loop brand closure

PP-ES DISPOSABLE EYE SHIELDS

- Minimum 40% Dose Reduction
- Box of 50
- Barium sulfate shields are non-latex and 100% disposable

PP-TS DISPOSABLE THYROID SHIELD

- Minimum 60% Dose Reduction
- Box of 50
- Barium sulfate shields are non-latex and 100% disposable

684120 OVARIAN SHIELDS

- Set of the three (Infant, Youth and Adult)
- Designed especially for ovarian procedures
- 1.0 mm Pb equivalent
- Easy to use and explain to your patient
- Nylon covered
- Durable
- Easily wipes clean

PGS GONAD SHIELDS

- Set of three (Infant, Youth and Adult)
- One inch tie strap
- Easy fastening around the waist
- .50 mm Pb equivalent
- Washable

GND TRIANGULAR GONAD

- Set of three (Infant, Youth and Adult)
- One inch tie strap
- Easy fastening around the waist
- .50 mm Pb equivalent
- Washable

PTD PATIENT TRANSFER DEVICE

- 18" or 22" wide models
- Also available with Storage Rack
- Large hand holds
- One inch wide wrist straps
- Anti-static
- Thin
- Board slides easily from surface to surface.
- Tested up to 300 lbs.

COLORS: White

FEATURE YOUR
COMPANY LOGO.

683399 PATIENT TRANSFER RACK

Wall mounted rack for PTD storage

SIZE 9" H X 15" $\frac{1}{4}$ x 6 $\frac{3}{4}$ " Depth

INDEPENDENT AGENCY CORE MATERIAL TESTING

Infab Corporation protective material is extensively tested by multiple INDEPENDENT professional agencies and testing facilities using the latest scientific methods before it ever becomes your radiation protection apron.

In actual independent side by side tests, Infab Corporation protective aprons attenuate higher across a larger spectrum of direct beam kVp and are lighter weight at those attenuation levels than any other manufacturer's aprons in the world.

Real testing, real data, real protection. That's the Infab difference.

NATIONAL PHYSICAL LABORATORY
Continuation Sheet

RESULTS:

Attenuation ratio $F_{FB} = \frac{K_0 - K_2}{K_1 - K_2}$

Attenuation % $\% = 1 - \left(\frac{K_1 - K_2}{K_0 - K_2} \right)$

where:
 K_0 = Air Kerma Rate without the test object in the beam
 K_1 = Air Kerma Rate with the test object in the beam
 K_2 = Background Air Kerma Rate with the test object replaced by a sheet of material with an attenuation ratio greater than 10³

Table II
Bi-layer Lead Free, sample 1, 0.25mm nominal Lead equivalent

kV	Equivalent Lead thickness mm	Attenuation Ratio F_{FB}	Attenuation %	PASS/FAIL
50	0.2401	35.74	98.0	PASS
70	0.2611	25.85	96.1	PASS
90	0.2673	11.85	91.6	PASS
110	0.2825	7.811	87.2	PASS
120	0.2950	6.779	85.2	PASS

Table III
Bi-layer Lead Free, sample 2, 0.35mm nominal Lead equivalent

kV	Equivalent Lead thickness mm	Attenuation Ratio F_{FB}	Attenuation %	PASS/FAIL
50	0.3317	17.52	96.7	PASS
70	0.3731	62.73	96.4	PASS
90	0.3750	21.46	95.0	PASS
110	0.3553	12.42	92.0	PASS
120	0.3447	10.30	90.4	PASS

Table IV
Bi-layer Lead Free, sample 3, 0.50mm nominal Lead equivalent

kV	Equivalent Lead thickness mm	Attenuation Ratio F_{FB}	Attenuation %	PASS/FAIL
50	0.5137	149.7	99.3	PASS
70	0.5585	54.55	97.0	PASS
90	0.4825	21.29	95.3	PASS
110	0.4672	17.33	94.2	PASS

*The ionisation current was too low to be accurately measured compared to the background leakage current. This implies that the attenuation is greater than 99.9%. Optimism and interpretation expressed herein are outside the scope of UKAS accreditation.

ISO 9000:2008 - Quality Management

Infab Corporation is pleased to be a part of the ISO 9000 family, an exclusive network of companies that focus on high quality products, customer service and management with the customer's full and complete satisfaction in mind. The ISO 9000 family addresses various aspects of quality management and contains some of ISO's best known standards. The standards provide guidance and tools for companies and organizations who want to ensure that their products and services consistently meet customer's requirements, and that quality is consistently improved. ISO 9001:2008 sets out the requirements of a quality management system.

ISO 9001:2008

ISO 9001:2008 sets out the criteria for a quality management system and is the only standard that can be certified to. The standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement. ISO 9001:2008 helps ensure that customers get consistent, good quality products and services.

Along with our FDA registration, 510k certifications and implementation of FDA Good Manufacturing Practices (GMP's), our CE certificate and now our ISO 9001:2008 certification you can rest assured that our products are manufactured to the very highest standards in existence. No other manufacturer of radiation protection products and accessories can claim a more stringent manufacturing process or higher level of certification.

When you buy Infab products buy with the confidence that four different auditing organizations have certified our products. Infab products are manufactured to the highest standards in existence.

Category III CE Mark

Infab products are now marked with the prestigious category III CE Mark. Labeling a product with the category III CE Mark means that Infab has obtained two prestigious certificates. The product has been tested under strict EC-type examination, and certified that it is in accordance with the Council Directive 89/686/EEC (Personal Protective Equipment). In other words, the products have been tested and certified, receiving an Article 10 certificate. The Manufacturer facility (Infab headquarters in Camarillo, CA) has received the Article 11B certification. The Article 11B verifies that Infab has a "system for ensuring EC quality of production by means of monitoring, and the manufacturer has his quality control system approved by a Notified Body (ISO:9001 certification)".

Article 10 & 11B Certificates

The combination of these two highly regarded certifications (Article 10 and Article 11B) qualifies Infab Corporation to use the category III CE Mark!

TERMS & CONDITIONS

1. **PRICING, DELIVERY AND PAYMENT.** The prices for Product delivered under this Order do not include customs charges or duties, or sales, use, excise or similar taxes, or special packaging, or transportation, rigging, drayage, insurance charges and other costs associated with the delivery of Product to the destinations specified by the Customer unless specifically set out on the invoice as individual line items. Therefore Customer will pay directly to Seller ("Seller"), in addition to the prices specified in this Order, any amount set forth on Seller's invoices for customs charges, duties and/or taxes (or provide applicable tax exemption certificates acceptable to the taxing authorities) and special packaging costs, and shall pay directly to the involved carrier(s) all such delivery related costs. All licenses or certificates required for import or export of the Product shall be the responsibility of and obtained at the cost of Customer. Seller's terms are cash upon delivery, unless otherwise set forth in a distribution or reseller agreement. If credit terms are approved by Seller, Customer shall pay all invoices net thirty (30) days after date of shipment. If payment is not made when due, Customer shall be assessed a late charge equal to one and one-half percent (1-1/2%) of the past due balance for each month or partial month following the due date. Additionally, at seller's discretion, all discounts shall be removed and any amounts due shall be the current list price of such items, regardless of any other agreement or discount offered. All deliveries shall be made F.O.B. common carrier, Seller's plant. Title and risk of loss or damage will transfer from Seller to Customer upon delivery of goods at the F.O.B. point. Customer shall notify Seller, in writing, within one (1) calendar day after delivery, of any claimed shortages, damage or of rejection of the delivery. Sufficient detail to establish grounds shall be included in any rejection.

2. **PRODUCT SAMPLES.** Product samples will be provided to licensed distributors of Seller's product. Upon termination of a distribution arrangement, distributor shall return to Seller, at distributor's expense, all samples previously provided to distributor by Seller in resalable as new condition. For any goods not returned in accordance with the above, Distributor will be invoiced for sample product at the same discount established for distributor for production goods. If invoice is not paid within 10 days of receipt, all discounts will be canceled and prices for samples will revert to full List Price.

3. **SECURITY INTEREST.** Seller reserves, until full payment is received, a Purchase Money Security

Interest in each Product Unit and the proceeds of any sale thereof. A copy of this Order may be filed as a Financing Statement with the appropriate state authorities to perfect the security interest of Seller.

4. **CANCELLATION OF PRODUCT.** Customer hereby acknowledges and agrees that all Product is custom manufactured for each individual Customer and once production has commenced there can be no cancellation of orders.

5. **TERMINATION.** This Order may be terminated by either party at any time: (a) if the other party has breached any material provision contained in this Order and has not cured the breach within thirty (30) days of receipt of written notice of the breach; or (b) if the other party petitions for relief under the Bankruptcy Act, if a receiver is appointed to conduct its business, if its makes an assignment for the benefit of creditors or if an involuntary bankruptcy petition is brought against it and has not been discharged within 30 days of date brought. Seller termination of this Order shall be without prejudice to any other remedies Seller may have. In the event Seller terminates this Order pursuant to Article 4, in addition to any other remedies available to Seller, Customer shall be obligated to pay for all Product shipped and shall accept delivery of and pay for all Product on order as of the date of termination. Customer's obligation to pay all charges accrued as of the termination hereof shall survive such termination.

6. **GENERAL PROVISIONS.** These terms and conditions shall supersede all terms and conditions printed or implied on any purchase order issued by Customer. No other terms or conditions shall be binding upon Customer or Seller unless said terms and conditions are specifically accepted in writing by Customer and Seller. The failure of Customer or Seller to enforce at any time or for any period of time any of the provisions of this Order shall not constitute a waiver of such provisions. Seller shall not be liable for delays or failure to ship for causes beyond Seller's control, affecting it or its suppliers, including, in part: natural disasters; war; Customer's conduct; labor unrest; riot; governmental interference; unavailability or shortage of labor, materials, fuel or power through customary means at normal rates; failure or destruction of plant or equipment arising from any cause whatsoever; or failure of transportation. If any provision of this Order should be determined to be unenforceable or illegal, it shall be deemed severable from the other provisions, which shall remain valid and enforceable. The validity, performance and construction of this Order shall be governed by the laws of the state of California. Customer agrees to accept venue in, and accept the exclusive jurisdiction of, the courts sitting in the state of California. Any disputes arising out of the performance of this Order shall be settled in accordance with the rules of the American Arbitration Association. The arbitrator may award all costs of dispute resolution, including attorneys' fees, to the prevailing party. Seller

agrees that the Product to be furnished under this Order was produced in compliance with all applicable federal requirements with respect to fair labor standards and equal employment opportunity.

7. **LIMITED WARRANTY ON PRODUCT.** Seller warrants that all Products are warranted to be free of defects in material and workmanship for a period of two (2) years from the date of shipment. Products returned under the above warranty shall be either repaired or replaced at the sole discretion of Infab Corporation, and is limited to the value of the Products on the date of the original shipment. All replaced parts and Product become the property of Seller. This limited warranty does not include service to repair damage to the Product resulting from customer's negligence, misuse, modification of the Product, or use for purposed other than those intended by its manufacture. Seller's obligations under this limited warranty are conditioned upon Customer's compliance with Seller's reasonable instructions and requests in connection with its performance of such obligations. Service under this limited warranty may be obtained by delivering the Product at Customer's expense (using the original shipping container or its equivalent) during the warranty period to the manufacturer and providing proof of purchase date. Customer shall assume the risk of loss or damage in transit. Seller shall bear the cost for return of repaired or replaced Product under valid warranty claims to Customer by normal commercial means in the continental United States. For further information, refer to the Limited Warranty contained in Seller's standard product literature, if applicable.

NOTE: All aprons must be inspected by the facility before they are put into service. No returns for aprons with alleged pinholes, tears, or cracks will be allowed more than seven (7) days after the aprons have been received by the end user. Protective core material is fragile, easily damaged and therefore great care is needed to protect the integrity of the core material. All aprons are inspected and free of defects when they are shipped. Pinholes, tears, cracks and other damage to the protective core material can be caused by many different factors, but if they are not there when the apron is received and inspected, then they are not the responsibility of the manufacturer and the warranty does not apply.

EXCEPT AS SET FORTH HEREIN AND IN THE LIMITED WARRANTY INCLUDED IN SELLER'S STANDARD PRODUCT LITERATURE, IF APPLICABLE, SELLER HEREBY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, ARISING OUT OF OR IN CONNECTION WITH THE SALE OR USE OF THE EQUIPMENT, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. OTHER THAN AS STATED ABOVE THE LIMITED WARRANTY SET FORTH IN THIS SECTION, COMBINED WITH THE LIMITED WARRANTIES CONTAINED IN SELLER'S STANDARD PRODUCT LITERATURE, IF APPLICABLE,

SHALL CONSTITUTE THE SOLE AND EXCLUSIVE REMEDY OF CUSTOMER AND SHALL ESTABLISH THE SOLE AND EXCLUSIVE LIABILITY OF SELLER, ITS SUCCESSORS OR ASSIGNS IN CONNECTION WITH THE PRODUCT. IN NO EVENT WILL SELLER BE LIABLE TO CUSTOMER FOR ANY DAMAGES, INCLUDING SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, ARISING OUT OF THE USE OR INABILITY TO USE SUCH PRODUCT, EVEN IF SELLER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR ANY CLAIM BY ANY OTHER PARTY. SOME STATES DO NOT ALLOW THE LIMITATION OR EXCLUSION OF IMPLIED WARRANTIES OR OF LIABILITY FOR SPECIAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. SOME STATES DO NOT ALLOW THE LIMITATION OF LIABILITY OR THE EXCLUSION OF IMPLIED WARRANTIES, SO THE ABOVE LIMITATIONS AND EXCLUSIONS MAY NOT APPLY AND CUSTOMER MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

8. **DAMAGE IN SHIPMENT.** The packaging of Infab products meets or exceeds all requirements of the Consolidated Freight Classifications. However, all packages should be checked immediately upon arrival at Customer's facility. Should any concealed damage be suspected the Customer shall note it on the Bill of Lading when received. If any concealed damage is discovered, place a hold the shipping container and contact the carrier to schedule an inspection. Any claim must be made directly to the carrier within 24 to 48 hours of merchandise or the claim may not be allowed. Any claim for damage must be made directly with the carrier. Infab cannot file a claim in the name of or for the benefit of the Customer. Failure to follow this exact procedure could invalidate your claim.

9. **DELIVERY.** All stock items are shipped from our warehouse the same day if P.O. is received before noon. Otherwise it will ship next day. Non-stock or custom items (such as modified or special size aprons and/or monogramming) are shipped within 7 to 10 days of our receipt of your completed order. All special services such as UPS Blue or Red, Fed-Ex, Airborne, etc. can be accommodated at actual cost.

10. **MINIMUM ORDERS.** There is a \$100.00 minimum per purchase order.

11. **EXCHANGES OR RETURNS.** Exchanges or Returns must have prior approval by notifying us within 5 days of receipt of the order whether shipped direct to you or drop shipped to your customer. All returns must be sent in their original packaging. A 20% restock charge plus all freight charges including the outbound and return freight will be due and payable. Custom items such as special sized aprons, monogrammed aprons or a product with any modification are not returnable. This includes barriers or racks in any other color except our standard Medical White.
